Dear Sir,

This has the reference to the approval letter (Ref. Accordingly, I paid the early bird registration fee and made all necessary arrangements (VISA processing, flight and accommodation booking etc.) for attending the conference in person.

However, due to COVID19 pandemic, lockdown was imposed both in India and Spain, and flights got cancelled. The conference was converted to 'ONLINE' mode and held through ZOOM communicator platform. I attended the conference and presented my paper through online presentation.

I do hereby submit all documents related to the expenditure as approved (Registration Fee Payment receipt, Credit Card statement, Presentation Certificate) for reimbursement.

Sub: Application for approving grant to present research paper at IWBBIO2018

Respected Sir,

I am glad to inform you that one of my Research Papers titled as "Gene-Gene Interaction Analysis: Correlation, Relative Entropy and Rough Set Theory Based Approach" has been accepted for publication and oral presentation at 6th International Work-Conference on Bioinformatics and Biomedical Engineering (IWBBIO2018). The Conference will be held during **April 25 - 27, 2018 in Granada, Spain**. All the publications will be published at **Lecture Notes in Bioinformatics (LNBI) proceedings of Springer-Verlag**.

The paper has been submitted with the affiliation of our College "Heritage Institute of Technology", Computer Science and Engineering Department, Kolkata.

Iv. BIO organizers encourage **virtual presentation** option to those authors who are unable to attend the conference in person due to funding issues concerning travel expenses. Regular registration fee for the conference is 560€. But if we took the option of virtual presentation option then the registration fee is reduced to 410€.

I have received TEQIP fund in 2016 and that is also an amount of 8,000INR. Since then I have not applied for any kind of grant from TEQIP fund.

My request is to kindly grant me at least an amount of 10,000INR so that I can register my paper and present the paper at the said Conference.

Acceptance letter for the papers, please find enclosed.

Principal Sir,

The staff members of library are to be trained and updated in order to keep them abreast of the recent developments of the subjects. This proposal is regarding the sponsorship and deputation of two persons from Heritage Group of Colleges [Subhra Banerjee (Asstt. Librarian) and Mrinal Kanti Maiti (Jr. Asstt. Librarian)] to participate in **International Short Term Course on Open Source Software for Library Management(OSSLM-2018)** to be held on 07 -12 May 2018 and organized by Central Library, IIT, Kharagpur and National Digital Library of India (NDLI). They are also interested to attend the course .They will be equipped with new system/services for the years to come.

Topics to be covered in the short term course

1. Institutional Digital Repositories and services using Dspace
2. Web based Discovery services
3. Digital Library Services
4. Content Management System(CMS)

Registration and Short term course fee :

Sponsored candidate within 15th April Rs : 9000.00

Accommodation and Transportation – Rs : 400 x 8 = 3200.00

3000

I personally talked/e-mailed to Librarian, IIT, Kharagpur, very well person to me.

The registration and Short term course fee per candidate will be Rs : 6000.00.

So financial involvement per candidate Rs : 6000.00 + 3000.00 = 9000.00.

So the amount of RS 18000.00 and special leave to two persons for four days may be sanctioned for the above purpose.

Subject: regarding_4th int. conf. on Innovation & creativity

Respected Sir,

It has been really great for me to have been at Heritage Institute of Technology since 2011, owing the support I got from your office when my first DST project under the Fast Track Young Scientist scheme was released by SERB. Sir, keeping in mind your relentless support at such research activities, I would like to mention that last month I with my Ph.D. student **Debjyoti Chowdhury** who is also an alumnus and faculty of our institute went to IIM, Ahmedabad to present at **The Fourth International conference on creativity and innovation at/for/from/with grassroots (ICCI 4)**.

This was a continuation of the **GYTI 2016 award** that we got at **Rastrapati Bhawan, New Delhi**. Sir we had booked flight tickets for travelling from/to Ahmedabad regarding this purpose and as we currently don't have any funded projects like before, we payed the entire sum ourselves. We believe such activities are important as it helps put **brand Heritage** at national stage specially when it comes to institute like IIM, Ahmedabad. Sir, I and Debjyoti will be really grateful if we can get the reimbursement of the flight tickets only.

As always it was a pleasure meeting you yesterday.

Warm regards,

Dr. Madhurima Chattopadhyay,

Dear Friends in Profession:

Greetings from Suraksha!!!

To acquire a clear understanding of practical and application context of any technology, it is critical for everyone working to create lasting, meaningful change in the era of Laboratory Medicine.

Suraksha Diagnostic offers a series of workshops exploring the essentials of life sciences related technology to develop expertise.

The Management & Staff of Suraksha Diagnostic is delighted to announce the conduct of first ever workshop on **"Application of Real Time PCR in Modern Medical Research"** in Eastern India in this context we are very pleased to invite you to participate.

This workshop will provide theoretical and practical training session on PCR technology & its application in Diagnostic setting. We assure you that you will have a unique training experience in a friendly and relaxed atmosphere and return to your institution with renewed ideas for your daily practice.

USP's of this Workshop:

- Learn more about all aspects of qPCR from the experts
- Order our qPCR based tests
- Get help from Technical Support

Real-time quantitative PCR, also known as qPCR, combines the PCR amplification and detection into a single step, thus eliminating the need to detect products using gel electrophoresis and enabling the PCR method to be truly quantitative. Real-time PCR instrument systems utilize fluorescent dyes to detect the accumulation of PCR products during the exponential phase of the reaction, which allows for fast and precise product quantification and objective data analysis.

Real-time PCR instruments are used to perform the PCR as well as the real-time detection and monitoring of the resulting fluorescent signal. The Applied Biosystems family of qPCR systems, combined with our gold standard qPCR master mixes and TaqManOre probe-based assays for gene expression and genetic variation, make qPCR more accessible than ever. These systems offer cutting-edge software designed to support your application, and are flexible to accommodate the real-time chemistry of your choice.

We take the pleasure in inviting you to this workshop.

A draft outline of the workshop is appended to this letter.

We will appreciate your confirmation by calling us at 9051284604 or 033-6607-2434 or mailing us at subhanitaroy@gmail.com on or before 30th June 2016
