2. Measures taken to complete the syllabus of courses and programs.		<p>Since inception, Heritage Institute of Technology has promoted the usage of ICT enabled tools in the teaching learning process. As a result, all the classrooms are ICT enabled with overhead projectors and wi-fi connectivity. All the computer laboratories are equipped with 1:1 student to computer ratio, with computers having state-of-the-art configuration and LAN connectivity. While conducting a class, faculty members switch between projections and chalk-and-talk, as and when necessary, as all the classrooms are enabled with dual facilities. Adequate number of computers with internet connectivity is available at the Central Library as well where students can access digital contents, e.g., IEEE Journals, NPTEL Courses, E-Books, Question Papers of previous years etc. Wi-fi connectivity is available in the entire campus so that students can log-in with their institutional email account and use the facility for their academic activities.</p> <p>During the pandemic from March, 2020, in order to minimize the academic loss of the students, faculty members adopted 'Education in Emergency' and started conducting online classes from 23rd March 2020. Both students and faculty members have responded promptly in getting accustomed with the transition of andragogy from traditional face-to-face teaching-learning process to online teaching-learning process. Necessary guidelines regarding the modus-operandi of online classes and evaluation procedure have been circulated through emails by the Principal, Dean, Controller of Examinations and Associate Dean. The management of the Institute provided every possible support in this regard. Faculty members conducted thorough research to prepare instructional design suitable for online mode of teaching by reading articles and watching tutorials in various online platforms, attending webinars and discussing among peer groups. Initially, both the students and faculty members faced some tethering problems in getting accustomed with the online platforms and tools but with their untiring efforts they had been able to overcome. Online platform that is used to conduct classes is Zoom, Google Meet or Webex, depending on the individual's comfort zone. Google Classroom is being used by all the faculty members to apply the flipped classroom strategy. Faculty members are uploading various learning resources such as articles, pre-recorded videos, YouTube links, assignments etc. on the respective Google Classroom on a regular basis and students are also responding to those very well. Various online tools such as Kahoot, Quizizz, Mentimeter etc. are also being used by some of the faculty members to make online classes more engaging. Once thought impossible to conduct virtually for some cases, all the laboratory classes are also being conducted online. In many cases different open source simulation softwares are being used for conducting laboratory classes online. For laboratory classes where such softwares is not available, Institute has created facilities for recording videos, having proper resolution and acoustics, of the experiments that have been done by the faculty members in laboratories. While recording such videos, the members of faculty and technical assistants explained every single step of the concerned experiment with great care so that students face no difficulty in understanding. During the online laboratory classes, faculty members are referring to those videos while explaining the concerned experiments. Links to those videos are also provided to the students so that they can complete the lab assignments comfortably. Though initially few students faced issues due to the 'digital divide' but such problems also got resolved in due course of time and it was observed that close to a cent percent of the students are attending almost all the online classes which is a phenomenon that could not be seen in the previous years.</p> <p>Heritage Institute of Technology went into a partnership with Coursera, a premier organization offering online courses on emerging topics, under the 'Coursera for Campus' program. This partnership enabled students to learn emerging topics of their choice from the best resource persons of the world in that domain and that too completely free of cost for a span of six months. Many students have successfully completed a large number of courses among the available ones and earned certificates which will be valuable for their career. In fact, during this pandemic students of the Institute have completed more than 4000 various online courses, internships and training programmes offered by the leading universities, institutes and organizations of the world such as Stanford University, John Hopkins University, University of California (Irvine, San Diego), Yale University, Imperial College London, University of Michigan, Duke University, DeepLearning.AI, Google, Microsoft, NPTEL etc. through various online platforms such as NPTEL, Coursera, Udemy, Internshala, LinkedIn Learning etc.</p> <p>There is no denying the fact that due to the advancement of technology, there was already high growth and adaptation in education technology and online education. COVID-19 has just accelerated that growth and adaptation. It is believed that the teaching-learning process in future has to be a proper combination of face-to-face, synchronous and asynchronous learning. Keeping that in mind, all the stakeholders of Heritage Institute of Technology are continuously engaged in exploring the best practices for the best interest of the students.</p>
